Real Skills. Brighter Futures.

Creating Pathways from Skill to Self-Reliance

LIVE– Lalithambika Institute of Vocational Education,a programme of Shri Lalithambika Trust, has been established to provide accessible, practical and value-based vocational education to women and girls from tribal and economically weaker rural communities.

The programme is currently operational and provides 100% free education to 42 women and girls from 25 villages.

Current beneficiaries and learning community

Who We Serve

- 27 tribalwomen & girls
- 15 economically weaker rural women & girls
- Age group: 18–40 years
- Students drawn from 25 villages

Current Skill Programmes

Programme	Students	Duration
Tailoring	20	6 months
Computer	9	6 months
Allied Health Science	13	1 year / 2 year programme

From Education to Livelihood

AccesstoEducation→SkillDevelopment → Practical Training → Confidence → Employment / Livelihood Opportunities → Family Empowerment

The 13 Allied Health Science students are currently undertaking practical/on-the-job training at Abirami Kidney Care, Erode. For tailoring, LIVE aims to build a pathway from training to advanced skills, production, market linkage and self-employment as the programme develops.

The objective is not simply to provide training, but to create a sustainable pathway from education to dignity, self-reliance and improved family livelihoods.

About Shri Lalithambika Trust & LIVE

Programme Location

LIVECampus:AIM FORSEVAChatralaya, Anaikatti – 641108, Coimbatore, Tamil Nadu
Registered Office: Periyathadagam, Coimbatore – 641108, Tamil Nadu

Why This Programme Matters

For many womenand girlsintribal andeconomicallyweaker rural communities, access to quality skill education can be limited by economic constraints, geographical barriers and lack of accessible training opportunities.

LIVE addresses this gap by bringing free, practical vocational education closer to underserved communities and creating a pathway towards livelihood opportunities.

What Is Already Happening

- LIVEisalreadyoperational,withstudents actively undergoing vocational training.
- Tailoring: 20 students | 6 months
- Computer: 9 students | 6 months
- Allied Health Science: 13 students | 1 year / 2 year programme

The 13 Allied Health Science students are currently receiving practical/on-the-job training at Abirami Kidney Care, Erode, providing exposure to a working healthcare environment.

LIVE also undertakes village-by-village awareness and outreach to identify deserving women and girls, create awareness about skill education and encourage participation in vocational training.

LIVE has moved beyond an idea into an operating skill-education programme.
The next opportunity is to strengthen the existing programme, deepen practical training and progressively extend its reach.

Building Skills for Real-World Opportunities

LIVEprovidespractical vocationaleducationdesigned to equipwomen andgirlswithrelevantskills, confidence and practicalexposurethat cansupportfutureemployment andlivelihood pathways.

TAILORING

20 Students | 6 Months

The programme develops practical garment-making and tailoring skills, with a longer-term pathway towards advanced skills, production, market linkage and self-employment.

COMPUTER SKILLS

9 Students | 6 Months

The programme develops essential digital and computer skills that can improve access to further education, employment opportunities and digitally enabled livelihoods.

ALLIED HEALTH SCIENCE

13 Students | 1-Year / 2-Year Programme

Students combine academic learning with practical exposure. The 13 current students are undertaking practical/on-the-job training at Abirami Kidney Care, Erode.

Computer Lab Strengthening | Current capacity: 5 computers | Immediate strengthening need: 5 additional computers

Our Training Philosophy

Learn•Practise • Build Confidence • Prepare for Opportunity

LIVE seeks to go beyond classroom instruction by progressively connecting education with practical skills and future livelihood opportunities.

From Skill Education to Self-Reliance

LIVE isdesignedto createmeaningful opportunitiesfor women who have limitedaccess toformal skill-developmentpathways, particularly from tribal and economically weaker rural communities.

Women learners representing the current programme

Women Empowerment Pathway

- Access to Free Education
- Practical Skill Development
- Confidence & Capability
- Employment / Self-Employment Opportunities
- Improved Family Livelihoods
- Greater Self-Reliance

Tribal Women — Creating Access Where It Matters

Among the current 42 beneficiaries, 27 are tribal women and girls from villages in and around the Anaikatti region. By providing free vocational education and community-based outreach, LIVE seeks to reduce barriers to skill development and create access to opportunities.

Rural Women — Skills for Economic Opportunity

The program me also serves 15 economically weaker rural women and girls. Through practical training in tailoring, computers and allied health, LIVE aims to equip participants with skills that can support future career and livelihood choices.

A Broader Impact

Woman → Family → Community

When a woman gains access to education and skills, the benefit can extend beyond the individual.

Connecting Learning with the Real World

LIVEplaces strongemphasison practical exposure and community outreach,sothatvocational education is connected to real-world learning and the needs of the communities being served.

Allied Health Science students during practical/on-the-job training at Abirami Kidney Care, Erode

Practical Training

- Experienceareal workplace environment
- Apply classroom learning in practice
- Develop professional confidence
- Understand workplace responsibilities and discipline
- Prepare for future employment opportunities

Community Outreach

LIVE follows a village-by-village outreach approach to create awareness about vocational education and identify women and girls who can benefit from skill-development opportunities.

Learner interaction and programme engagement

Community → Education → Practical Exposure → Future Opportunity

Partner With LIVE to Expand Opportunity

LIVE offersa practical CSRpartnershipopportunitytosupportwomen,tribalcommunitiesand economically weaker rural families through skill-based education and livelihood-oriented development.

What CSR Support Can Enable

- Vocational training infrastructure
- Training equipment and learning resources
